Card / Profile / Detailed / Overview

I think we should have a displayname for users in addition to firstname and lastname. The displayname goes here, and has a 16 character limit, to fit on most mobile devices. Firstname has 20 limit, and lastname 18.

There's a very thin and light divider line (1 pixel thick, #E8E8E8) below the headings (e.g., BIO, TEAMS). It starts 16 pixels from the left edge of the card and goes all the way to the right edge.
